Course Duration: 1 Day

Price Per Delegate: £245
(Public Scheduled Course)

Price Per Course: £745
(On-Site at Customer Premises)

Suitable For:
Those currently working with Adobe Illustrator who wish to exploit this software to a fuller extent in order to produce professional, complex illustrations.

Learning Outcomes:
By the end of the course delegates will become fully conversant with the more intricate functions of Illustrator and will be able to create sophisticated artwork for virtually any medium.

Prerequisite Skills:
Delegates attending this course should to be able to design and create simple documents which include basic drawings and the use of layers and artboards. They should also be able to use simple formatting tools and use cut, copy and paste effectively.
